DRY CLEAN Chemicals

SPOTTING CHEMICALS page 5 - 6

PRODUCT	IMAGE	DESCRIPTION	USAGE
PERC 330kg 33kg		PERCHLOROETHYLENE Stabilized dry cleaning solvent.	Always fill your dry cleaning machine with pure dry cleaning solvent only.
PERC ph 3kg		Product formulated to reduce the acidity. The ph of perc should always range between 6 and 8 to reduce its corrosiveness.	Test the ph of the perc in your tanks regularly. If the ph is out of the recommended range, add +/-1kg of PERC ph to 250L of perchloroethylene.
ACTIVATED CARBON 20kg		Pur-a-solve. A product to reduce the free fatty acids and fugitive dyes in perchloroethylene.	± 2 % CARBON to dry weight capacity of machine.
DIOP 5ℓ		Use at a dilution of 1:8 to the total volume of water in the cooling system or electric boiler.	Soak the damaged garment in DIOP until the garment is soft and restored. The garment must drip dry and NOT be put in a dryer.
LEATHER GLO 5ℓ		Leather and suede oil for re-oiling in machine or spraying	Add up to 3% LEATHER GLO into button trap or by dozing pump. Mix 1 part LEATHER GLO with 5 parts perc or water and spray garment gently and evenly.

PRODUCT	IMAGE	DESCRIPTION	USAGE
TOWER CLEAN 5ℓ		Formulated to descale the cooling tower and the cooling system to ensure optimum and effective cooling of the perc during the distillation process.	Use at a dilution of 1:8 to the total volume of water in cooling systems or electric boiler.
HYFLO 22.7kg		Hyflo filter powder.	HYFLO filter powder to be added to the powder filter during the filter drop.
BATCH CLEAN 25ℓ		Anionic batch detergent for perchloroethylene.	10ml of BATCH CLEAN per KG of dry garments, in either pre or main wash.
ECONO BATCH 20ℓ 5ℓ		Anionic pre-spotter and batch detergent for perchloroethylene.	10ml of ECONO BATCH per KG of dry garments.
BATCH SPECIAL CONCENTRATE 20ℓ 5ℓ		Non-ionic / anionic dry cleaning batch detergent. Fragranced and formulated to **retexturize** and prevents excess.	5ml to 8ml of BATCH SPECIAL CONCENTRATE per KG of dry washing.
CHARGE SHEEN 25ℓ		Non-ionic/anionic charge detergent for perchloroethylene. Retexturiser, deodorant, optical brighteners and high water holding capacity.	½ to 1 % CHARGE SHEEN to volume of Perc in working tank and filter.

Dirty Laundry... we love it!

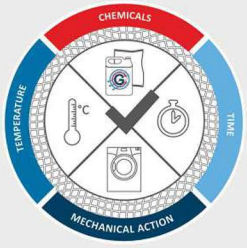

At GARMENT CARE we are passionate about cleaning. We are committed to supplying you with a holistic efficient and sustainable textile care solution.

Our products are problem specific solutions chemically engineered to enhance the quality of your results in each segment of the industry. Whether you are a big industrial laundry or the trusty family laundry, our experienced team will supply you with a tailored package to meet your needs.

We will not only assist you in choosing the correct product from our comprehensive range, but will help to optimise your results by establishing the optimum balance with the four elements of a good wash, as set out in the Sinners Diagram, for your unique setup.

We are aware of the challenges in the industry and by assessing and understanding the strengths and weaknesses of your setup and the requirements of your clients we will assist you in striking an effective and efficient balance that will ultimately lead to greater profits and a solid client repute and retention.

SINNERS DIAGRAM

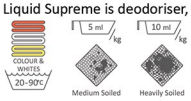

LEGEND:

LIQUID SUPREME

Liquid Supreme is a superior, industrial low foam, liquid laundry detergent. Can be dosed manually, or with the convenience of dosing pumps, without compromising the quality of your results. Liquid Supreme is deodoriser, with alkalis and activators.

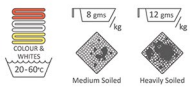

We are laundry specialists and can assist you with all your dosing pump needs; supply, installation, commission and maintenance.

BIO EM 1000

The ultimate one shot Industrial laundry detergent. Chemically engineered with 6 enzymes to enhance its powerful stain removal capabilities. Bio EM 1000 has a strong citrus fragrance, with optical brightener, alkalis, oxygen bleach and 6 enzymes.

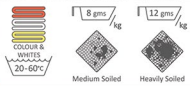

With its 2-in1 action it softens while it cleans. Bio EM 1000 is environmentally friendly and biodegradable.

BIO POWER PLUS

Superior quality one shot industrial detergent. Contains a strong citrus deodoriser, optical brighteners, alkalis, oxygen bleach and 3 enzymes for powerful enhanced stain removal capabilities. Bio Power Plus, with its 2-in-1 action softens while it cleans. It is environmentally friendly and biodegradable.

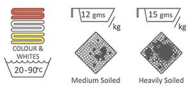

TRU MICRO

Lavender fragranced, well rounded superior laundry detergent. Tru Micro is a low foam one shot laundry detergent with optical brighteners, alkalis and activators. Tru Micro will surprise you with its soft scent and even softer finish.

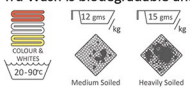

Tru Micro is environmentally friendly and biodegradable.

TRU WASH

An impressive allrounder, low foam detergent, boasting with its red and blue specs. Tru Wash has a lovely citrus scent, with activators and alkalis. Its 2-in-1 action softens while it cleans. Tru Wash is biodegradable and environmentally friendly.

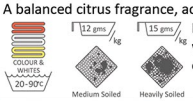

ECONO WASH

Econo Wash is an economically superior low foam detergent. Garment Care's work horse. Econo Wash is a cost effective, white, free flowing detergent with all the necessities included. A balanced citrus fragrance, activators and alkalis.

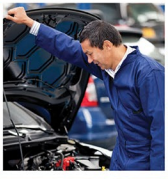

Econo Wash also softens while it washes. It is biodegradable and environmentally friendly.

LAUNDRY Chemicals

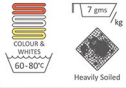

A BOOST

Alkaline for heavily soiled garments. To be used in conjunction with a laundry detergent.

Linen Mist that will leave your linen and room with a clean, fresh aroma.
Impress your clients with a burst of bold fragrance.
Cherry Blossom
Almond & Honey
Wild Blossom
Water Lily

SPRAY STARCH

Model Spray Starch. For a crisp fresh finish and easy ironing.
Usage depends on the stiffness required.

LAUNDRY STARCH

Top quality pure white laundry starch. Usage depends on the stiffness required.

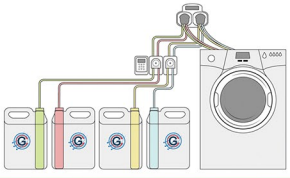

DOSING PUMPS

Dosing

In case you opted for the convenience of liquid laundry detergents, allow us to fit your laundry with the latest technology dosing pumps. We fit and maintain the dosing systems and we have a variety of options in this regard. The dosing system will ensure that you cut down on wastage, spillage and the plain over use of chemicals, ensuring that no drop goes to waste. The system is user-friendly making it easy to adjust the dosing volumes and washing cycles when and as you need to.

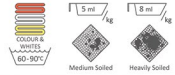

STAINEX

Hospital stain remover for the removal of blood and stubborn stains and fugitive dyes from fabric, whilst also disinfecting.

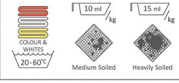

BLOODEX

Blood stain remover that also disinfects whilst removing the blood stains.

FAB SOFT

Superior lavender fragranced liquid fabric softener. For a super soft finish to your garments accompanied with a fresh lasting fragrance. No artificial colourants.

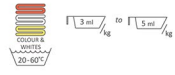

TRUSOFT

A concentrated liquid fabric softener. With a beautiful array of colours and fragrances giving your garments a super soft finish, accompanied by a fresh lasting fragrance.

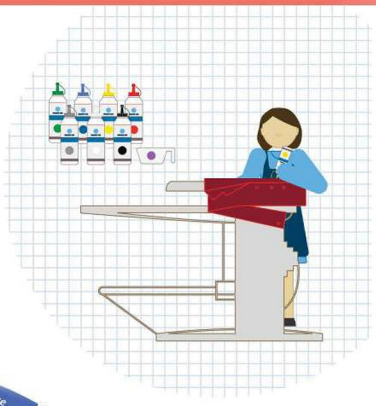

Spotting Chemicals - Engineered to do miracles!

Our spotting chemicals are an impressive range of problem specific solutions chemically engineered to give you the advantage in stain removal. The spotting wheel below and spotting chart on your wall, will easily guide you to the ideal product for your spotting needs. We will supply you with a spotting bottle set, supported by a spotting chart, putting your staff in a position to get the desired result without wasting time, money and risking the possibility of damage to the garment.

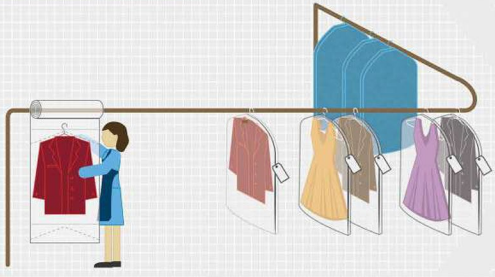

There is no better way to stun your clients by re-moving stains thought to be impossible to remove.

Garment Care

The specialists in Textile Care

Garment Care started in 1991 as a specialist dry cleaning chemical manufacturer in Gauteng. Since then we have grown into a passionate and dynamic business manufacturing a wide range of dry cleaning and laundry detergents, professional cleaning solutions and accessories for laundry and dry cleaning. We pride ourselves in the quality and efficiency of our products and we are passionate about our service.

From sprouting in Gauteng, South Africa, we expanded across Southern Africa. We currently service the entire South Africa, Lesotho, Swaziland, Mauritius, Namibia, Botswana, Zambia, Botswana, Malawi, and the Democratic republic of Congo

Whilst we are results driven in our approach to cleaning we are committed to a greener future. Through active recycling and continuous research and development we consistently improve our products and production processes to ensure that we become greener and greener.
